Being Competitive in a Global Industry

Factors impacting BC's competitiveness:

- Supply of fibre
- Access to fibre
- Cost of fibre
- Access to markets
- Supply chain integrity
- Labour costs

Maximizing Value

- High quality fibre is in short supply
- Focused on maximizing the value out of each log
- Targeting higher value applications for our wood products

Partnerships with Indigenous Nations

Developing partnerships

Investing the time to build trust

More work to be done

Innovating for the Future

Commercial Thinning

Digital Forest

Biofuel

Mass Timber

Thank You
